1. Who we are?

Project YugParivartan Synergy Platform is a revolutionary platform being developed under the Mentoring of **Defined Values Consultants Pvt Ltd** and Leadership and Management of **PYP Golden Age Foundation**, a Section-8 NGO company, with an objective to elevate the performance and consciousness levels of each member of the platform and enable the creation of **Golden Age for Humanity** through their synergetic efforts. This is being done by developing and networking large number of **Self-Realized Mentors, Self-Actualized Change Leaders, Competent Businesspersons and Dedicated Volunteers** through the deeply researched frameworks, mentoring & training programs, tools, techniques, advises and consultations. Few highlights of the journey travelled so far:

- We have our footprints in around 30 cities of Bharat (India) so far.
- We have conducted around 500 public events, workshops, online conferences, Global Summits, debates, Wisdom Book circles, candid conversations and several other forums of the PYP Synergy Platform.
- Close to 150 eminent people, celebrities, spiritual gurus, sitting Governors of Indian states, international speakers, Padma Shri and other intellectuals have spoken on our platform.
- Code of Citizens's Conduct book (the vision document of Project YugParivartan or PYP in short) is presented to almost 100 dignitaries of the country.
- Several people associated with the system have already been immensely benefitted through the mentoring and networking. AND MANY MORE....

2. Our Founder

Figure 1 – Chief Mentor Hitesh Chandel (CMHC)

Mr. Hitesh Chandel is the **Founder and Chief Mentor** of **Defined Values Consultants** and **PYP Golden Age Foundation**. Prior to establishing his companies, he worked with several leading organizations including multi-national companies in IT domain for 14 years. There was something buried deep in his heart to channelize his spiritual energies towards development of his country Bharat (India) and re-establish its status as *Sone Ki Chidiya* (Golden Bird) and *Vishwaguru* (mentor of the world).

This inspired him to do a deep research on the ancient human philosophies and contemporary western organizational development philosophies to create a blended individual and organizational development framework, **Self-Actualized Leadership Development Program (SALDP)**, which has best of both worlds integrated into the same. He is on the mission to synergize all Individuals and Organizations with **Project YugParivartan Synergy Platform** to establish the **PYP WISE World Order** as per the **Eternal Principles and Natural Laws**. The Transcendental Consciousness achieved by regular practice of Eternal Principles has inspired him to author the revolutionary book titled **“Code of Citizen's Conduct (Rashtradharm)”**, which summarizes the root cause of all issues confronting the humanity today. The book goes on to provide a clear vision to fix the root causes of these issues and take the world towards a new era of high consciousness named as **Golden Age** or **PYP WISE World Order**. The most distinctive and unique aspect about his writing is in challenging the belief that the problems of mankind are intrinsically social, economic or political. In his enlightened wisdom, these are only symptomatic of a “Spiritual deficiency”, which is the underlying root cause of all the problems and hence need solutions that find their base on the Spiritual realm. He has codenamed the project to accomplish this goal as **Project YugParivartan** (Project Era Change).

Read on this proposal to see how you can be benefitted by joining the PYP Synergy Platform.

3. Why Project YugParivartan Synergy Platform?

Project YugParivartan (PYP) is a rare cosmic phenomenon which takes place to re-inject the Eternal wisdom in the collective human consciousness, whenever it starts declining to dangerous levels. It is a step in the direction of correcting the Course of Mankind; from the Detonation switch to Renovation switch. PYP is working diligently and effectively to promote and aid the transition towards the Golden Age through several forums being created as part of **PYP Synergy Platform**. We are synergizing several eminent people, intellectuals, thought leaders, businesspersons and volunteers through the framework, mentoring, networking and resources, thereby accelerating the progress of their Life's mission and take the world towards the Golden Age. The change to the new Yuga will throw up a complete metamorphosis of the world and universe as we know it today. It will involve transformation for humans internally and in all their interactions with the universe – spiritual, mental, emotional or physical. A step in the direction of creating a **WISE World Order** based on **Natural Laws and Eternal Principles** is the need of the hour.

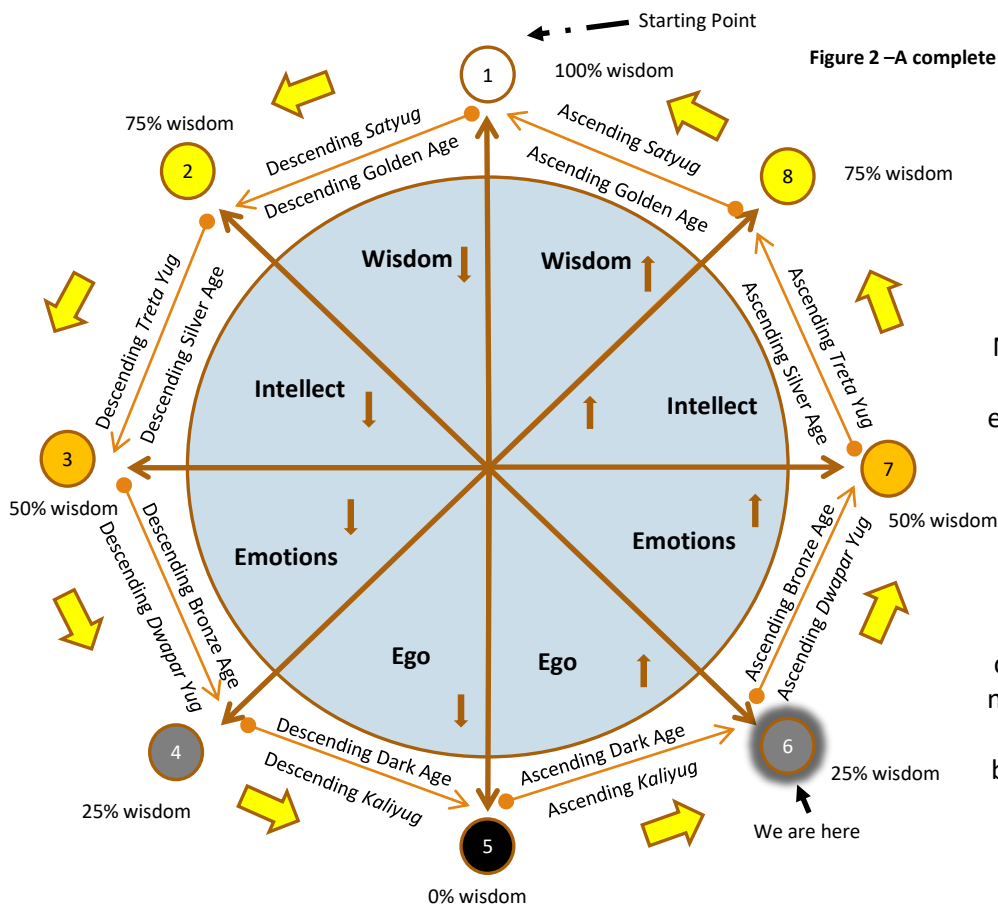

Figure 2 –A complete Cycle of Yuga (Eras)

Referring to Figure 2, The contemporary humanity is at Node number 6. The successful execution of PYP would take the collective humanity towards the Golden Age. If the collective consciousness is not integrated in time, it can fall back to Node no 5 (Dark Age).

4. Adding “Goal 0 – Self-Actualization of All Leaders” to UNSDGs

The 2030 Agenda for Sustainable Development, adopted by all United Nations Member States in 2015, provides a shared blueprint for peace and prosperity for people and the planet, now and into the future. At its heart are the 17 Sustainable Development Goals (SDGs), which are an urgent call for action by all countries - developed and developing - in a global partnership. They recognize that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests.

The current Economic, Social, Political, Religious and Physical infrastructure of the country and the world has become so chaotic that it is not easy to resolve the current situation through the conventional wisdom and existing systems. So, in addition to the humongous efforts enabled by United Nations towards the 17 Sustainable Development Goals, the situation of the world demands an urgent injection of unconventional wisdom to meet these goals timely, as any further delay in waiting for existing systems and processes to deliver expected results, may lead to a catastrophe. PYP has taken the ACCOUNTABILITY of all that has gone wrong on the planet and have vowed to bring about the much-needed course correction, by synergizing all the positive actions done by Individuals and Organizations on earth to create a RIPPLE effect, that will take Mankind into a world of Abundance and Prosperity for every single soul on the planet.

PYP is proposing the addition of **18th Goal, the Goal 0 –Self-Actualization of All Leaders**, to the **United Nations Sustainable Development Goals (UNSDGs)** as you can see in the Figure 3 below. This will make this planet sustainable for not only humankind but all other species as well.

Figure 3 – United Nations Sustainable Development Goals

While management principles keep changing as per Space and Time, the principles of leadership are Eternal and apply to all walks of human professions and exist since the human civilizations started. The GOAL Zero added by PYP will ensure that the solutions for all problems of the world are derived based on Eternal Principles and Natural Laws.

5. Associating with Project YugParivartan Synergy Platform

To implement the grand vision of PYP, it is important that people and organizations across the planet can have an option to participate based on their skills, area of interest, resources and network. PYP is proposing a **Worldwide Integrated Services Ecosystem (WISE)**, so that even the last person on the planet is served well during his short stay on this planet in human life. Accordingly, we have classified the memberships in a manner that no one on the planet is left out. The classification is done in the form of 6-Synergy Tracks for Individual Memberships and 6 Categories & 24 sub-categories for the Organizational Membership. A brief overview of these Membership Classifications are explained in the subsequent pages of this document.

6. Self-Assessment based Membership Mapping

To make sure that the inclusion of every member is a value-add for the system, and system is a value-add for each member, we have devised a methodology through which we can understand the Seeker, Fulfilled and Provider Index of the person through their own Self-Assessment.

Seeker: Every person seeks something in his life till the time he lives. We seek, what we lack, and no one can ever be fully-fulfilled in all aspects of life. This is due to the ever-changing circumstances in life as part of the design of this Microcosm. The Seeker level within a human being, drives his life.

Fulfilled: Every person is fulfilled in his life at one or more needs fulfillment level. If someone is not getting any of his needs fulfilled, then he will die immediately.

Provider: Every person is a Provider to fulfill Seeking of other human beings. It is our Provider Index which defines how useful we are for the world.

The mapping of a person with the platform is done based on the SFP index invented by Defined Values Consultants (DVC). Figure 6 below shows the SFP Index Map.

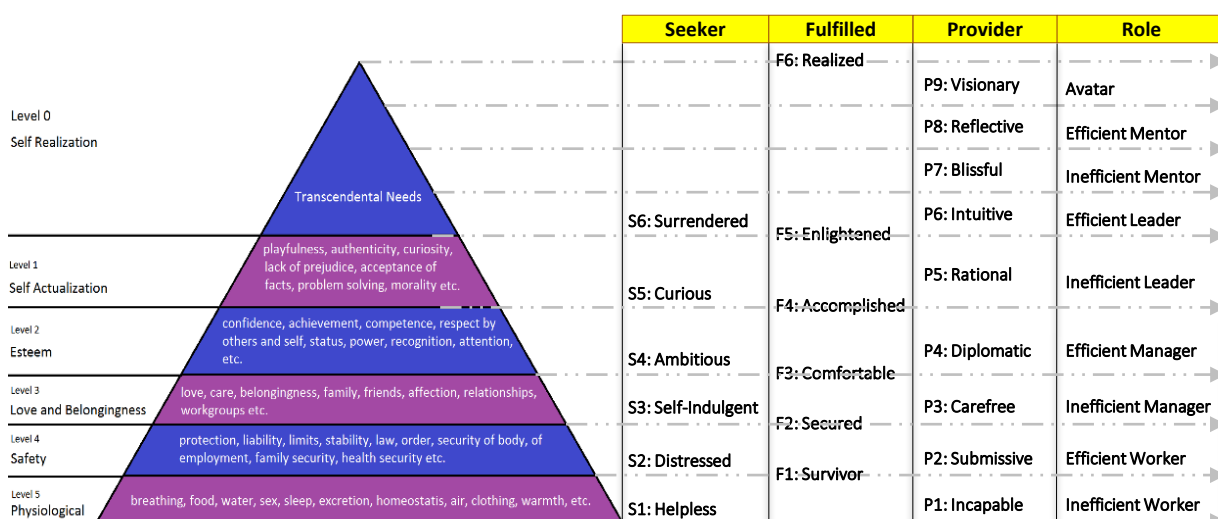

Figure 6– “DVCs - SFP Index” map of measuring the human potential and expectations of performance

The growth in any of the 3 parameters results into progress in human life. Raising the Seeker level of a person means “Raising the Potentiality”. Raising the Provider level of the person is nothing but “Raising the Performance”. PYP gives mentoring to raise the Potential of the Member towards Self-Realization and provides opportunities to manifest that into actions through Self-Actualization.

7. Induction Programs for Members

A leader is a person who collaborates the efforts of several people and resources to accomplish something which is not easier for a single person to do. This is one of the most difficult tasks and requires something more than the operational excellence, high domain knowledge, great communication skills, charming personality, pleasing behavior and possession of material resources. To ensure that the PYP members develop requisite consciousness, skills, attitudes, behavior, physical and mental health, awareness about the geo-political and the local issues, we have designed and mandated appropriate training and mentoring programs as per the requirements for each Membership Types. The detailed process guidance for each of these programs, are separately published in their respective Prospectuses. However, as you can see from the Tables explaining the Individual and Organizational Membership types, we have designed **Self-Actualized Leadership Development Program (SALDP)** as a flagship mentoring program for all our members to equip them with the wisdom to derive all decisions of their lives through Eternal Principles and Natural Laws. Every member of PYP will get enough opportunities to develop and manifest their potential into Self-Actualized Leadership Performance.

8. Synopsis of PYP WISE World

The various Ecosystems around the world are progressively developed since several millennia as per the local needs of a particular civilization. However, now we have reached to a state where most of these Ecosystems have become **Volatile, Uncertain, Complex and Ambiguous (VUCA)** in almost all countries of the world, resulting into a huge resource wastage of this planet on one side, and deprivation of even the survival needs fulfillment on the other side for large number of people. The Global Warming caused due to the ineffective utilization of this planet's resources has eventually created a dreaded problem, which has a potential to bring the entire ecosystem down towards the Dark Age. There is an urgent need to reform this Ecosystem based on Eternal principles, to sustain current and future human civilizations on this planet. Figure 7 below explains the major problems affecting all the 4 pillars of human systems; Education. Governance, Businesses and Services.

Figure 7 – Current Ecosystem (Dark Age or VUCA World)

Figure 8– PYP Proposed Ecosystem (Golden Age Ecosystem or PYP WISE World)

And Figure 8 gives a glimpse of the Golden Age Ecosystem which we need to create by fixing the root causes of the issues depicted in the Figure 7. To achieve the Golden Age Ecosystem, many high-conscious leaders are required to be developed and networked. The problems in the Ecosystem is a grand opportunity for every soul on the planet to rise to the occasion and fix the root causes of the problems by becoming a **Self-Actualized Change Leader**. Figure 9 below gives a glimpse of the Social, Political, Economic, Spiritual and Physical Infrastructure reforms to collectively arrive at the Golden Age. The members of PYP Synergy Platform will be given the opportunity to work on various **PYP WISE Village** and **PYP WISE City** projects, as a long-term benefit of joining PYP.

8.1 Collaboration for developing PYP WISE Cities

PYP Synergy Platform proposes the City infrastructure based on Eternal Principles, in the form of smaller interconnected, high-tech, resource abundant WISE cities as shown in Figure 9. The high-level component diagram of WISE City depicts the design of a General WISE City. However, several additional flavors of WISE Cities are also proposed as part of Project YugParivartan.

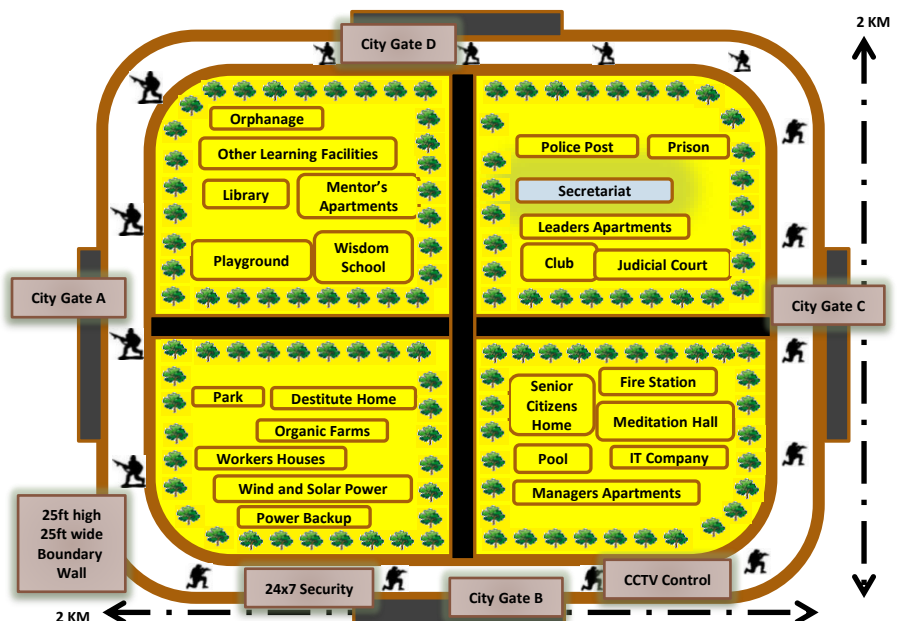

Figure 9– General PYP WISE City Diagram

The picture given above doesn't depict all the components of PYP WISE City and its periphery. Several additional components are added during the detailed design process. The specific features and strategies of a PYP WISE City depend on the unique needs, resources, and priorities of the local community or region. The overarching goal is to create a resilient and sustainable economic system that benefits both the environment and the people within that community.

The Key Highlights of a PYP WISE City are explained below:

- **Resource Efficiency:** PYP WISE City systems prioritize resource efficiency by minimizing waste and maximizing the use of resources within the local ecosystem. This includes reducing, reusing, and recycling materials to keep them in circulation for as long as possible.
- **Local Sourcing:** PYP WISE City system emphasizes sourcing materials and products locally whenever possible. This reduces transportation-related emissions, supports local businesses, and strengthens the regional economy.
- **Circular Supply Chains:** Circular supply chains are designed to minimize waste and ensure that products and materials are reused or repurposed rather than discarded. This often involves developing closed-loop systems where products are designed for easy disassembly and recycling.
- **Renewable Energy:** PYP WISE City system prioritize the use of renewable energy sources like solar, wind, and hydroelectric power to reduce reliance on fossil fuels and decrease the environmental impact of energy production.
- **Community Engagement:** Local communities play a central role in PYP WISE City systems. Community members are actively engaged in decision-making processes, and there is a strong sense of ownership and responsibility for the local systems sustainability.
- **Collaboration and Partnerships:** PYP WISE City initiatives encourage collaboration between businesses, government agencies, nonprofits, and other stakeholders. These partnerships help create a supportive ecosystem for circular economic practices. The PYP Synergy Platform synthesizes the Individuals and Organizations for collaboration and partnerships.
- **Resilience:** PYP WISE City systems are designed to be resilient in the face of external shocks and disruptions. By diversifying local supply chains and reducing dependence on distant resources, communities can better withstand economic and environmental challenges.
- **Innovation and Technology:** PYP WISE City system incorporates innovative technologies and practices to improve resource efficiency, reduce waste, and enhance local production capabilities.
- **Education and Awareness:** Education and awareness campaigns are essential in building a close-knit commune. They help inform and engage the community about the benefits of circular economy practices and encourage sustainable consumer behavior.
- **Policy Support:** PYP Synergy platform design has provision for interfaces with relevant Government departments to enable incentives for circular practices, waste reduction targets, and sustainability goals.
- **Waste Reduction:** PYP WISE systems prioritize waste reduction through strategies such as composting, waste-to-energy programs, and the reduction of single-use plastics.
- **Local Innovation Hubs:** PYP WISE City system promotes innovation hubs where local entrepreneurs and businesses can collaborate on sustainable product development and solutions.
- **Measuring Impact:** Regular monitoring and assessment of the environmental, economic, and social impact of PYP WISE Cities are important for continuous improvement. More and more measurement criteria is being defined to measure the effectiveness of these cities.
- **Circular Business Models:** PYP WISE Village and City system encourages businesses to adopt circular business models, such as product-as-a-service, where products are leased, repaired, and reused instead of being sold as disposable items.
- **Spiritual Upliftment:** The overall concept of PYP WISE Cities is designed keeping the Natural Laws and the Eternal Principles in mind, so that each resident can uplift himself socially and spiritually. As part of the Social Responsibility contributions, each PYP WISE City will have provisions for supporting destitute, senior citizens, single-women, orphans and special needs humans. It will also ensure that Education and Health management of all citizens will be the responsibility of the City Management, without any charges or on minimal charge basis. The PYP WISE City is a spiritual abode for every resident.

It explains the complete design framework on which our Creator has designed all of us. It explains about the maximum potential of each human being and the path to realize the same. It explains the vision to convert each organization of the world into a highly effective institution. It attempts to merge all existing religions, faith systems, theologies, management and leadership philosophies into a Utopian theory that can easily be understood by all intellectuals of the world. It summarizes the past, present and future of humanity with a clear vision of the WISE World Order based on the highest human wisdom.

It explains the real needs of all human beings and a path to assure the sustained fulfilment of all needs for all human beings. In short, this book provides a clear vision to make the planet earth best place in the universe to live and work for each of its citizen.
